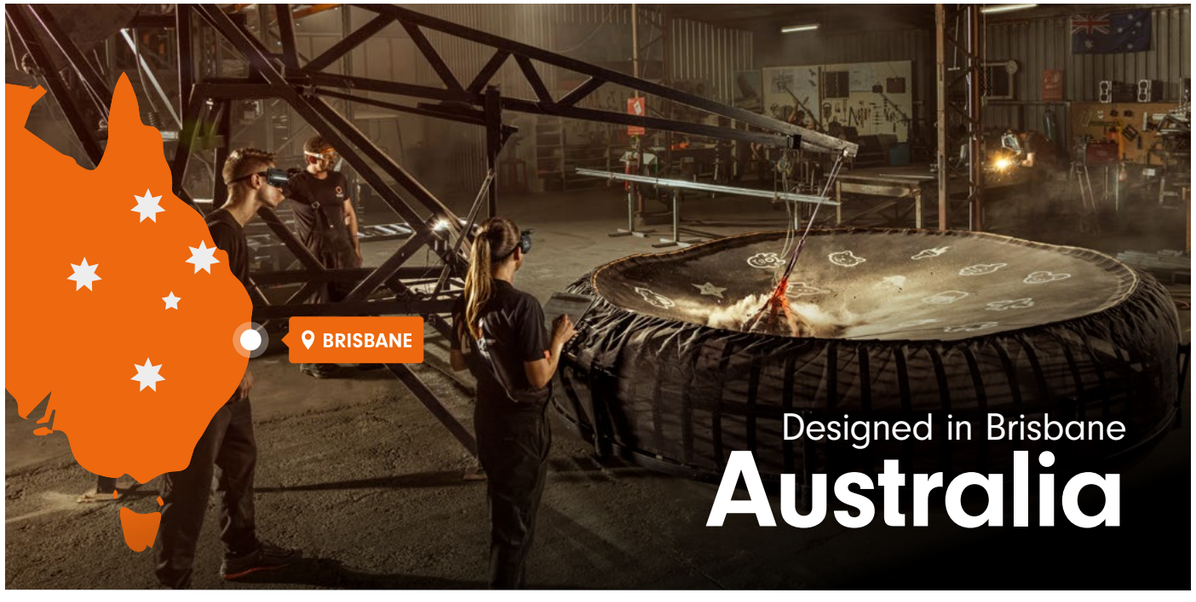
About Vuly

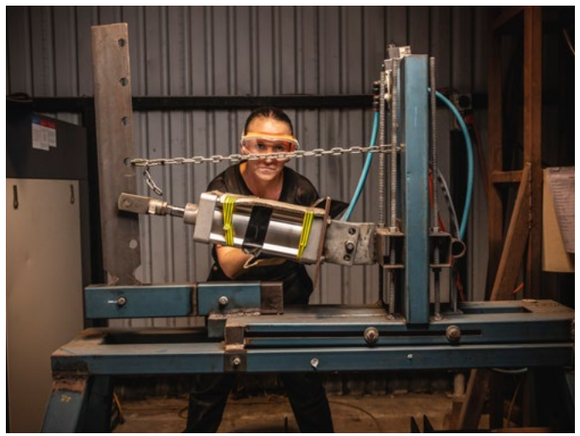
Vuly pushes limits in outdoor play equipment. Founded in Brisbane in 2008, we thrive on combining the very best in industrial design and technology to create the most dynamic and safe products for families around the world.



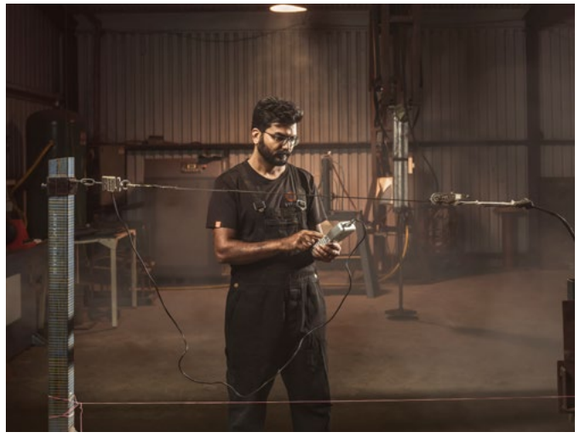
Strong by design. Verified by testing.

AUSTRALIA	USA	EUROPE
AS4989:2015	ASTM F2225	EN 13219

We put each product through its paces with purpose built equipment at our in-house laboratory in Brisbane - to ensure they'll last in your home. Battered with intense weather exposure that simulates years in the wild Australian climate, we don't just claim our outdoor play equipment is strong: we prove it.



We don't think it's enough to just meet the minimum when it comes to product testing.



2,500,000

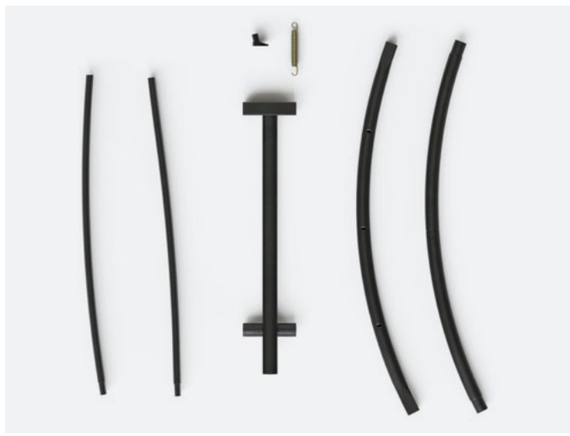
Globally accredited.

Beware of outdoor play products that don't back up their claims with safety standards. Each Vuly model is accredited not just to Australian Safety Standards, but also to those in the USA and Europe, by one of the top recognised product certification companies: TÜV, Intertek or SGS.



Half-Price Parts for Life

Never pay full RRP for replacement parts on your Vuly.

Vuly customers receive half-price spare parts for the life of their Vuly product.

Our warranty and offer of **HALF-PRICE SPARE PARTS** for life ensure your Vuly is always kept at its best.
